Final Year Projects Handbook

(An easy guide to understanding projects)

You learn more quickly under the guidance of experienced teachers. You waste a lot of time going down blind alleys if you have no one to lead you.

- W. Somerset Maugham

Electrical, Electronics, Instrumentation & Communication

80/33, First Floor, Cherran Towers, Near KG Theatre, Arts College Road, Coimbatore - 18
About CodeBytes

CodeBytes is the profit based Research & Development Company, catering to the
development and research for wide range of computational applications in the field of business
solutions, embedded developments, technology developments, entertainment software, retail
and transport, construction, telecom & satellite. Having an experienced manpower, who have
an expertise in respective fields, CodeBytes provides the consultancy in technology based
solutions in order to achieve automated, unbiased, reliable processes.

Academic Project Consultancy

CodeBytes offers consultancy in academic projects for the advanced topics. Research and
industrial projects available for B.E., B.Tech, M.E., M.Tech, Ph.D, M.Phil, MSc, MCA, BSc
and Polytechnic students of Computer, Electrical, Electronics, IT, Telecom, Instrumentation
branches. Some of the areas in which we provide projects are:

* Image Processing & computer vision
* Multimedia Codec, Processing & Transmission
* Neural Network, Fuzzy Logic, AI and GA
* Web-Technology
* Embedded applications: VLSI, RTOS, DSP Processor
* Network and Security, Sensor Network, Ad-hoc Network
* Communication and Wireless Technologies
* Instrumentation, Virtual Instrumentation & Data Acquisition
* Digital Signal Processing, Speech Coding and Recognition
* Data Warehousing and Data Mining
* Hardware, Firmware, PCB based Implementation
* Electrical & Power Electronics
* Robotics and Imaging
* Java Technologies (J2SE, J2EE, J2ME, AJAX, JSP, Servlets, etc)
* VLSI, VHDL, NS2, RTOS
* VC++, COM, DCOM
* VB, .NET, C#.NET, ASP.NET

We provide implementation of research papers from reputed journals and
conference proceedings like IEEE, EURASIP, IEE etc.

</table>
E09PS64  Power quality and factory automation
E09PS65  Automation of reciprocating gas engine compressor packages using programmable logic
E09PS66  Design an intelligent programmable logic controller with IPLC
E09PS67  Digital, remote control system for a 2-MW research reactor
E09PS68  Application of programmable logic controllers for pipeline local and remote control
E09PS69  Automatic Railway Station Automation Using PLC
E09PS70  Boiler Automation System Using PLC
E09PS71  Design And Implementation of PLC- Based Monitoring Control System For Induction Motor
E09PS72  Design And Implementation of Power Plant Automation Using PLC
E09PS73  Detection of Gas Leakage and Alarming System Using PLC
E09PS74  Determination of Critical Cable Length for Ferto Resonance
E09PS75  Digital Energy Meter Using GSM Technologies
E09PS76  Distributed Control System Using PLC
E09PS77  Industrial Automation Using PLC
E09PS78  Low Cost PLC Design using Micro Controller
E09PS79  PLC Based Automatic Car Parking System
E09PS80  SCADA based Automation of Power Plant and Distribution System PLC
E09PS81  Unmanned Petrol Pump by Automation Using Microcontroller, PLC
E09PS82  Power generating station automation using PLC with high protection.
E09PS83  Automatic Bottle filling System using PLC for multinational company.
E09PS84  Design and Implementation of Power Plant automation using PLC.
E09PS85  Railway Automation.
E09PS86  Web Based Power Plant Control Using PLC
E09PS87  Decentralized Cooperative Multi-Robot Learning - A Testbed For Secure And Robust Scada Systems
E09PS88  Scada Systems For Substation Automation
E09PS89  Industrial Attendance Supervision Organization Using Infrared Rays Sensors
We at CodeBytes have evolved a unique practical methodology to give a real project experience to the students. CodeBytes with its understanding of the academic requirement and the expertise gained through implementing the projects over last six years offers industry relevant real time projects to the final year students in IT field, which are executed in the simulated development environment of CodeBytes. The availability of essential tools, software and hardware combined with the able guidance gives the learners all the confidence and capabilities required to execute the projects in the industries in which they get employed.

CodeBytes®
80/33, First Floor, Cherran Towers, Near KG Theatre, Arts College Road, Coimbatore - 18

Call: 97915 32226
www.codebytes.webs.com
codebytesprojects@gmail.com
Features:
- Latest 2009 IEEE Projects
- FREE course training with project
- Challenging topics to choose
- Real Time projects from our clients for eligible students*
- Group offer
- Hardware Kit buyback / resale scheme
- Training based on SDLC model
- Reasonable cost
- FREE project documentation (soft copy)
- FREE Hard Copy for the first batch from every college!!

We don’t sell projects....
.....but we enable you to do it.
